

**BOARD OF TRUSTEES
CARSON CITY SCHOOL DISTRICT**

**POLICY No. 815
OPERATIONS**

SOFTWARE COPYRIGHT

It is the intent of the Carson City School District to adhere to the provisions of copyright laws in the area of microcomputer programs. Though there continues to be controversy regarding interpretation of those copyright laws, the following procedures represent a sincere effort to operate legally. The Board recognizes that computer software piracy is a major problem for the industry and violations of computer copyright laws contribute to higher costs and greater efforts to prevent copies and/or lessen incentives for the development of effective educational uses of microcomputers. Therefore, in an effort to discourage violation of copyright laws and to prevent such illegal activities:

1. The ethical and practical problems caused by software piracy will be taught in all schools in the District.
2. District employees will be expected to adhere to the provisions of Public Law 96-517, Section 7(b) which amends Section 117 of Title 17 of the United States Code to allow for the making of a back-up copy of computer programs. This states that "...it is not an infringement for the owner of a copy of a computer program to make or authorize the making of another copy or adaptation of that computer program provided:
 - a. that such a new copy or adaptation is created as an essential step in the utilization of the computer program in conjunction with a machine and that it is used in no other manner, or
 - b. that such a new copy and adaptation is for archival purposes only and that all archival copies are destroyed in the event that continued possession of the computer program should cease to be rightful."
3. When software is to be used on a disk sharing system, efforts will be made to secure this software from copying.
4. Illegal copies of copyrighted programs may not be made or used on school equipment.
5. The Superintendent or designee of this School District is the only authorized individual who may sign license agreements for software for schools in the District.
