

**BOARD OF TRUSTEES
CARSON CITY SCHOOL DISTRICT**

**POLICY No. 701
PROPERTY**

FACILITIES PLANNING

The Board of School Trustees recognizes that sound planning based on accurate information is essential to the efficient operation of the schools. In order to assure that future District construction is planned on the basis of need, the Board shall adopt a long range Master Plan. The plan shall include a thorough description and analysis of local and regional demographic factors which influence general population growth and public school enrollments.

In planning for the enlargement or modification of its facilities, the Board shall consider not only present and future student enrollments, but also the physical requirements of the program it deems best suited to meet their needs. Each school building and site shall provide suitable accommodations to carry out the educational program of the school including provisions for persons with disabilities, pursuant to law and regulation. Any new facilities should be planned for simplicity of design, economical maintenance and insurance coverage, high educational utility and flexibility of use.
