SCHOOL NUTRITION / WELLNESS

The Board recognizes that children need to be provided with healthy food choices and access to physical activity in order to learn, thoughtfully interact with other people and to develop mentally and physically.

Accordingly, the Board directs that the Carson City School District abides by Federal Public Law #PL 108.265, sec 204 and the Statewide Child Nutrition, Wellness, and Healthy School Environment Policy and provide and adhere to a District Nutrition / Wellness Policy. This policy is to be updated and revised annually.
